ROOSEVELT RETIRES; TAFT TAKES CHARGE

New President Outlines Policy of His Administration in Inaugural Address on Assuming Office.

WASHINGTON, March 4.—President Taft and Vice-President Sherman were inducted into office today according to program. Over 200,000 visitors were here to witness the great event and the hotels and boarding-houses were taxed to their utmost to accommodate them.

The time-honored inaugural parade claimed more attention than the inaugural ceremony itself, and there were fully 50,000 men in line, including the Governors of fourteen States and their staff; three thousand blue jackets from the fleet which has just encircled the globe; marching clubs from every section, probably the largest of which delegations was that of 1,000 members of the New York County Republican Club, which had the distinction of escorting the retiring President to the station before falling in line in the inaugural parade, and many other organizations.

The President and President-elect and the Vice-President and Vice-President-elect, accompanied by the joint committee of Congress, proceeded from the White House to the Capitol in carriages at 10 a. m., followed in carriages by members of the cabinet, the secretary to the President and the President's aides.

Arriving at the Capitol at 10:20, the President and President-elect were escorted to the President's private room in the Senate and the Vice-President and Vice-President-elect to the Vice-President's room, also on the Senate side, to await the inaugural ceremonies. Promptly at noon Vice-President-elect Sherman took oath of office in the Senate chamber, and then addressed that body, whereupon the Senate organized.

The oath of office was administered to Mr. Taft by Chief Justice Fuller of the Supreme Court of the United States at 12:40 p. m., on the stand at the east front of the Capitol. President Taft then made his inaugural address, which, owing to the extremely cold and blizzardy weather, was delivered in the Senate chamber. It was as follows:

The Inaugural Address.

My Fellow Citizens—Any one who takes the oath I have just taken must feel a heavy weight of responsibility. If not, he has no conception of the powers and duties of the office upon

which he is about to enter or he is lacking in a proper sense of the obligation which the oath imposes.

The office of an inaugural address is to give a summary outline of the main policies of the new administration so far as they can be anticipated. I have had the honor to be one of the advisers of my distinguished predecessor and as such to hold up his hands in the reforms he has initiated. I should be untrue to myself, to my promises and to the declarations of the party platform upon which I was elected to

office if I did not make the maintenance and enforcement of those reforms a most important feature of my administration. They were directed to the suppression of the lawlessness and abuses of power of the great combinations of capital invested in railroads and in industrial enterprises carrying on interstate commerce. The steps which my predecessor took and the legislation passed on his recommendation have accomplished much, have caused a general halt in the vicious policies which created popular alarm and have brought about in the business affected a much higher regard for existing law.

Further Action Needed.

To render the reforms lasting, however, and to secure at the same time freedom from alarm on the part of those pursuing proper and progressive business methods further legislative and executive action are needed. Relief of the railroads from certain restrictions of the anti-trust law have been urged by my predecessor and will be urged by me. On the other hand, the administration is pledged to legislation looking to a proper federal supervision and restriction to prevent ex-

cessive issues of bonds and stocks by companies owning and operating interstate commerce railroads.

Then, too, a reorganization of the department of justice, of the bureau of corporations in the department of commerce and labor and of the interstate commerce commission looking to effective co-operation of these agencies is needed to secure a more rapid and certain enforcement of the laws affecting interstate railroads and industrial combinations.

I hope to be able to submit at the first regular session of the incoming

Congress in December next genuine suggestions in respect to the needed amendments to the anti-trust and the interstate commerce law and the changes required in the executive departments concerned in their enforcement.

"Good and Bad Trusts."

It is believed that with the changes to be recommended American business can be assured of that measure of stability and certainty in respect to those things that may be done and those that are prohibited, which is essential to the life and growth of all business. Such a plan must include the right of the people to avail themselves of those methods of combining capital and effort deemed necessary to reach the highest degree of economic efficiency, at the same time differentiating between combinations based upon legitimate economic reasons and those formed with the intent of creating monopolies and artificially controlling prices.

The work of formulating into practical shape such changes is creative work of the highest order and requires all the deliberation possible in the interval. I believe that the amendments to be proposed are just as necessary in the protection of legitimate business as in the clinching of the reforms which properly bear the name of my predecessor.

Revision of the Tariff.

A matter of most pressing importance is the revision of the tariff. In accordance with the promises of the platform upon which I was elected, I shall call Congress into extra session to meet on the 15th day of March, in order that consideration may be at once given to a bill revising the Dingley act. This should secure an adequate revenue and adjust the duties in such a manner as to afford to labor and to all industries in this country, whether of the farm, mine or factory, protection by tariff equal to the difference between the cost of production abroad and the cost of production here, and have a provision which shall put into force, upon executive determination of certain facts, a higher or maximum tariff against those countries whose trade policy toward us equitably requires such discrimination. It is thought that there has been such a change in conditions since the enactment of the Dingley act, drafted on a similarly protective principle, that the measure of the tariff above stated will permit the reduction of rates in certain schedules and will require the advancement of few, if any.

The proposal to revise the tariff made in such an authoritative way as to lead the business community to count upon it necessarily hits all those branches of business directly affected, and as these are most important it disturbs the whole business

WORK HAS COMMENCED ON NEW WHITE HOUSE

EIGHT MORE ROOMS TO ACCOMMODATE THE TRADE.

Major Thomas Has Faith in Such An Enterprise and Will Enlarge as Demand Warrants.

Work has commenced on the new addition of eight more rooms to the White House, and Major Thomas hopes to have them completed as fast as possible.

Since assuming charge of the hotel himself it has more than trebled in business and for many weeks they have been unable to accommodate all who desired to stop there. To meet this increased business he has started the work on eight more large rooms, to be complete with gas and steam fixtures, which he desires to have ready as soon as the work can be done. Already the foundation has been laid and lumber and material is being placed there preparatory to starting the work the first of next week.

The Major is very much enthused over the flattering business and says that if the present conditions continue he will enlarge the building still more for the next season's business, largely advertising the place and Gainesville during the summer months.

He has long thought that two good hotels would pay here, and it having been fully demonstrated that a first-class tourist hotel was needed he immediately began preparations to accommodate as many as possible the present season.

A Religious Author's Statement.

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. J. W. McCollum & Co.

It Tastes Good and Creates Strength

Vinol

the famous cod liver and iron medicine, without oil. Vinol is much better than cod liver oil and emulsions, because, while it contains all the medicinal value they do, it disagrees with no one. As a body builder and strength creator for old people, delicate children, after sickness, and for stubborn coughs and colds Vinol is unequalled.

A DELIGHTFUL SURPRISE.

Kirby Smith Chapter Had Most Interesting Meeting and Reception.

Thursday was the regular meeting day of Kirby Smith Chapter, U. D. C., for the transaction of monthly business, and as usual a large number laid aside other duties to attend. Few, if any of the members, however, had any idea of what was in store for them until they arrived at the home of the president, Mrs. H. H. McCreary, where the meeting was called, and were accorded a reception in honor of Mrs. Anita Spence, a visiting member of the New York Chapter, of which Mrs. Judge Parker is president. Mrs. Spence is the guest of Mrs. J. F. McKinstry, Jr., and bears a most cordial letter of introduction from Mrs. Parker commending her to the Daughters of the Confederacy wherever she may be. Kirby Smith Chapter never fails to make visitors feel at home, and on this occasion the ladies fairly tried to outdo each other in making the afternoon one long to be remembered.

The lower floor of the home, which is elegantly arranged for entertaining on just such occasions, was thrown into virtually one room, and was handsomely decorated with the colors of the chapter and tiny Confederate flags. An impromptu musical and literary program was carried out, Mrs. McKinstry and Miss Eva Ward treating the assemblage to most beautifully rendered vocal solos, while Mrs. Spence delighted all with two recitations. She is an excellent reader, and all were delighted to again hear her. Gainesville's favorite musician, Miss Ida Burkhim, presided at the piano, and added much to the evening's pleasure. After the exercises the guests were invited into the dining-room, where delightful refreshments were served.

It was without doubt one of the most interesting and delightful meetings the chapter has ever held, and the hostess was congratulated by all for the clever manner in which she had surprised and entertained them.

The guests departed to the strains of Dixie, played by Miss Burkhim.

Pure Foods and Pure Medicines

mean better, healthier, happier people. It has been proved, however, that all medicines are not adulterated and worthless any more than are all food products.

The wheat has been sifted from the chaff, and such medicines as Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs and complies with all conditions of the Pure Food and Drug Law, will continue to hold its place as the standard American remedy for female ills.

Pleasant Birthday Party.

Little Miss Edith McMakin entertained a number of her young friends Wednesday afternoon, the occasion being tendered in honor of her sixth birthday. Numerous games were indulged in, among which was a peanut hunt, which afforded the little folks much pleasure.

Dainty refreshments were temptingly served, and the guests departed wishing for Edith many happy returns of the day.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities that if neglected might result in Bright's disease or diabetes. J. W. McCollum & Co.

ASTHMA VANISHES

So Does Catarrh, Croup, Hay Fever and Bronchitis.

Hyomel is a confidence creator. The first time you breathe in this powerful yet soothing, antiseptic air, you will know that it has marvelous curative virtues. There is nothing disagreeable about Hyomel. It is a very pleasant and prompt remedy for catarrh, colds, asthma, croup, bronchitis, etc.

If your head is so stuffed with mucus that you cannot breathe a particle of air through your nostrils, Hyomel will open them up and give relief in five minutes.

Why will sensible people suffer longer, why will they wheeze and hawk and spit and smother, when J. W. McCollum & Co. will guarantee Hyomel to cure or money back. \$1.00 is all they ask for a complete outfit.

"I have used Hyomel for hay fever, and can pronounce it the best relief for this trouble that I ever tried or heard of. I have had this malady for years, and have doctored and used many remedies, but Hyomel is far ahead of any of the others, and has my hearty endorsement."—Mrs. M. S. Doan's Kidney Pills cure all kidney ills.

People in this vicinity testify to this.

Jos. Eckert, Thompson street, Starke, Fla., says: "I am very glad to recommend Doan's Kidney Pills as they proved of great benefit to me. The passages of the kidney secretions were irregular and when the secretions were allowed to stand they deposited a sediment. My back ached intensely and was very lame and sore, making it hard for me to stoop or lift. I could not rest well and mornings upon arising I was tired and worn out. I at length heard of Doan's Kidney Pills and deciding to give them a trial, I procured a box. This remedy effected a complete cure. The backaches and the lameness disappeared and my kidneys became normal."

DR. CLINE MAKES A HASTY "GET-A-WAY"

CLIPPING FROM NORTH CAROLINA
PAPER "PSETS HIM."

It is Alleged He Has Another Living
Wife in Georgia, Which is
Being Investigated.

Dr. A. E. Cline, the veterinary
surgeon who has been making Gaines-
ville his home for the past six or
eight weeks, suddenly took his de-
parture on Wednesday night, presum-
ably for points in North Carolina.

The cause of the Doctor's sudden
flight from Gainesville can best be
told by the following, which was clip-
ped from The Messenger-Intelligencer,
published in Wadesboro, N. C.:

"Perhaps no man who amounted to
so little as Dr. A. E. Cline, the veteri-
narian who located here several
months ago, ever succeeded in getting
himself talked about so much in such
a short time as did that worthy. It
will be remembered that Cline came
here from Statesboro, Ga., nearly
twelve months ago and opened a
veterinary office here.

"He had not been in Wadesboro
long when he was arrested on war-
rants from Statesboro charging him
with carrying concealed weapons and
defrauding. After a long fight he
was finally extradited to Georgia and
tried, but was acquitted of all the
charges against him except that of
carrying concealed weapons. He paid
the fine of the court in this case and
returned to Wadesboro in high feath-
er. He again opened an office and
tried to marry one of the best young
ladies of the county. He failed in this
because it was discovered that he had
a living wife in Georgia from whom, it
was known, he had never been di-
vorced.

"While Cline was in jail here during
his fight against being extradited to
Georgia he, in some manner, got hold
of several saws and attempted to saw
his way out of jail. In this State this
is an indictable offense, and the grand
jury, at the January term of criminal
court, found a true bill against him
for attempting to break jail. Cline,
bearing of this, fled the State before
he could be arrested. This was the
last heard of him here until the news
of his marriage, contained in a
special dispatch of February 17th from
Gainesville, Fla., to The Jacksonville
(Fla.) Times-Union was forwarded to
The M. & T. by a friend living in that
section."

Before making his departure Dr.
Cline told several of his friends that
he intended returning to the city, but
was going with his wife to North
Carolina; where he intended getting
the proper evidence to completely ex-
onerate him and return here to make
this city his home.

He left a larger part of his effects
here, and among some of his personal
mail a letter was seen which came
from the sheriff at Wadesboro stating
that everything there had been clear-
ed against him and congratulated him
upon his marriage and the fact that
he was now living the simple life and
trying to improve himself generally.

The Doctor took a private convey-
ance from this city and had his young
wife follow him on the morning train,
they meeting again at Hague, where
the Doctor boarded the train.

In reference to the living wife in
Georgia, the matter is now being in-
vestigated by parties in this city, and
the facts will be known within the
next few days.

Dr. Cline had made many friends
here and it is to be hoped that he
will return prepared to show a clean
record, so far as the second wife is
concerned, at least.

FOR CITY MARSHAL.

To the Voters of the City of Gaines-
ville:

I am a candidate for City Marshal,
for re-election on April 13. I have
served the people faithfully and effi-
ciently, night and day, and my record
is open for inspection.

If my service during the past year
has been satisfactory I ask the sup-
port and vote of each and every citi-
zen who is qualified. I can only
promise the same service as I have
endeavored to give in the past.

Yours for order,
BEN T. ARNOW.

I take this method of informing the
public that I am a candidate for City
Marshal at the election to be held on
April 13, 1909. I respectfully solicit
the support of all voters, irrespective
of party affiliation, and promise to
faithfully and impartially discharge
the duties of the office should I be
elected. Respectfully,
CHAS. C. WARREN.

I respectfully announce myself a
candidate for the office of City Mar-
shal, to be voted for at the election
on April 13, 1909. If elected I will
faithfully discharge the duties of the
office without fear or favor. I re-
spectfully solicit the votes of all, ir-
respective of party affiliation.
CHAS. M. DELL.

FOR TAX ASSESSOR.

To the Voters of the City of Gaines-
ville:

I respectfully announce myself a
candidate for City Tax Assessor for
the year 1909. Having been Tax As-
sessor for four years, I am fully pre-
pared to fill the office, as my record
will show, the city assessment hav-
ing been increased in that time from
a little over \$600,000 to over \$1,000,000.
I was prevented from running for this
office last year on account of sickness,
and now respectfully solicit your
votes.
W. M. BRADFORD.

To the Voters of Gainesville:

I hereby announce that I am a can-
didate for re-election to the office of
City Tax Assessor for the year 1909,
in the election to be held on April the
13th, and most earnestly request you
all to give me your vote and support
for the position.

Thanking you for your past endorse-
ment, I remain, Yours very truly,
B. R. COLSON.

ADAMS ARRESTED FOR FIGHTING THURSDAY

TOLD HIS LANDLADY HE WAS
THE "BOSS" OF HOUSE.

She Thought Otherwise and Had Him
Arrested Charged With Disorder-
ly Conduct and Fighting.

Sam Adams, a negro very little
known around this city, was arrested
last night on a charge of disorderly
conduct and fighting.

The complaint was made by Mary
Jones, with whom he has been board-
ing for some time, but Mary, tired of
his abuse, ordered him to leave the
place and not to put in his appear-
ance again at her home. Instead of
complying with her demands, how-
ever, he quit work entirely and said
she must furnish his feed and sleep-
ing quarters, as he was "boss."

After a general mix-up in which
Sam came out victorious the woman
came up town and had him arrested
for his abuse. He will probably be
given a bed in jail and free board by
the city for the next several days,
unless he is able to get up some cash
with which to pay his fine when he
appears before the mayor this morn-
ing.

Race Suicide

Is not nearly the menace to increase
in population that deaths among in-
fants are. Eight out of ten of these
death are directly or indirectly caused
by bowel troubles. McGee's Baby
Elixir cures diarrhoea, dysentery,
sour stomach and all infant ailments
of this nature. Just the thing for
teething babies. Price 25c and 50c per
bottle. Sold by W. M. Johnson.

One Needed Rest.

"Your husband needs rest, madam,"
said the doctor.
"I know it!" she exclaimed trium-
phantly. "I've told it to him forty
times a day for the last two months
if I have told it to him once. I've just
kept telling it to him all the time.
John, how many times have I told you
that you need rest?"
"On second thought," interrupted the
doctor, "perhaps it would be better if
you rested."

A Swollen Jaw

Is not pretty nor pleasant. Whether
it's caused by neuralgia, toothache or
accident, Ballard's Snow Liniment will
reduce the swelling and relieve the
pain. The great and sure cure for
rheumatism, cuts, burns, bruises,
scalds—any and all aches and pains.
Sold by W. M. Johnson.

A Poor Remedy.

"I notice a man who had a cold in
his head has committed suicide."
"Poor fellow! Now what fool friend
could have advised him to try that
remedy?"—Philadelphia Ledger.

"My three-year-old boy was badly
constipated, had a high fever and was
in an awful condition. I gave him
two doses of Foley's Orino Laxative
and the next morning the fever was
gone and he was entirely well. Foley's
Orino Laxative saved his life." A

Wormology.

Should be studied by every parent. A Mere Hint.

The young man had married the rich man's daughter and wasn't killing himself with work to support her. One day the old man took him to task.

"Look here," he said emphatically, "why don't you go to work?"

"I don't have to," the son-in-law replied, with brazen effrontery.

"Well, you will have to."

"Why will I?"

"Because, sir, I cannot live always to support you."

"But you will leave us something?"

"Not much I won't. There won't be anything to leave."

The son-in-law was alarmed.

"Great Jupiter!" he exclaimed. "You don't mean to tell me you have nothing?"

"That's about the size of it."

The son-in-law devoted himself to profound thought for several seconds.

"I have a suggestion to offer," he said in a businesslike manner.

"What is it?" asked the old gent.

"Well, I suggest that you take out, say, \$25,000 life assurance on yourself to save wear and tear on my mind."

Perfectly Equipped.

When the large and healthy looking individual who has asked at the door for "a little something to eat" was told that he might have it if he would work awhile at the wood pile he shook his head mournfully.

"I've got the ague," he explained, "and my hand is that unsteady I couldn't hit more'n one stick in seven."

"All right!" exclaimed the mistress of the house. "Go out in the back yard and shake those ashes for me."

"He is the most exact man I ever met. He believes in nothing but proved facts. Continually he pins you down."

"One day I said to him:

"Cannibalism—what an abomination! To eat of human flesh! Br-r-r!"

"The old scientist frowned.

"Pardon me, but have you ever eaten of human flesh?" he said severely.

"No," said I.

CURRENT COMMENT.

The Birmingham News says: "Another Sunday lynching was averted in an Iowa town by the vigilance of the authorities in hustling the negro prisoner out of the community. It seems that they don't like a negro in Iowa, either, when he gets to be a notorious offender."

The Springfield (Mass.) Republican says: "Even though the sundry civil appropriation bill carries a Presidential salary item of \$75,000, Mr. Taft will be little or no better provided for in this respect than Mr. Roosevelt has been for a year or two. In this time the President has had at his disposal \$25,000 a year, additional to his salary of \$50,000, for use in part or whole, according to his discretion, for traveling expenses. Now the \$25,000 travel fund is merged into the salary from which the President must meet his transportation costs."

The Washington Post says: "By special invitation Mr. E. H. Harriman is to address the Legislature of the State of Texas. Here will be an occasion opportune with great import; filled with possibilities of reconciliation, and a chance for the assimilation of reason. The very real octopus is to speak to the most inveterate of the octopus chasers en masse. Will they listen to this wizard of the market place and give heed to his words of facts and practicability? or will they be deaf to the tale of progress, and whirl their brains with fads of legislation and fancies of wrongs never committed?"

The Charleston News and Courier says: "Harry St. George Tucker, one of the ablest men in Virginia, is a candidate for Governor of that State at the Democratic primaries, and he has the courage of his convictions. The other day he said flatly that if he should be elected Governor of Virginia and the Legislature should pass a State-wide prohibition bill during the term of his office, he would feel it to be his duty to veto it. We do not know what effect so plain and explicit and honest a statement will have upon the Virginia electorate, but it is better that Mr. Tucker should be right than that he should be Governor."

Instead of introducing a new education bill to meet the fate of its predecessors at the hands of the House of Lords, the British government is going to bring in a bill to disestablish the church in Wales. The bill will, without doubt, pass the Commons, but the Lords will probably throw it out. This, evidently, is what the government expects and, perhaps, hopes, as such action would strengthen its position by arousing the nonconformists and the nation generally against the Lords. As is well known, the slogan of the liberals at the next general elections will be "Abolish the House of Lords as at present constituted."

There are many glaring instances of the ease with which some business men, supposedly shrewd and well-balanced, are duped by designing sharpers. One of the latest and most astounding is that of Sir Julius Wernher, who paid Lemoine, the French "diamond maker," \$300,000 for the secret of his formula and who, as the result of the arrest and trial of Lemoine got but \$2,000 damages. The formula by which the financier was victimized was "take sugar, raise it to a sufficient temperature, and you will obtain diamonds." It is evident that knaves will continue to flourish so long as such easy victims can be found.

Some conception of the expense of war may be gathered when it is known that it costs as much money to fire a 12-inch gun as an editor makes in two years.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Attention is being called to the fact that the farm uplift commission work of without compensation. But think of the fresh eggs they got while visiting the farms of the nation.

It is estimated that 500 deer were killed in Lee county during the open season. This seems an awful slaughter. And another point occurs: What argument, if any, has the State made for the protection of the forests there? Are not the deer worth more than a few thousand acres of orange trees, or celery?—DeLand News.

The experience of the railroads in Missouri the past year, so far as it goes, bears out the contention of those who assert that the roads would do a more profitable passenger business under a two-cent rate than under the old three-cent rate. It seems that with several of the lines the earnings per mile within the State, where the two-cent rate applies, have been greater than the interstate earnings. A little reflection will show how that has come about through the cutting off of passes, clergymen's permits, etc., and in the greater amount of travel due to decreased rates.

The time record for crossing the Atlantic has again been lowered, for the Mauretania has just beaten all previous records by one hour and 46 minutes. The way in which the time has been lowered in the past few years from seven days to 4 days, 17 hours, 50 minutes is a great triumph for marine architecture and engineering. The shortening of time will be welcomed by all who dread ocean voyages but who yet want to travel in Europe and other lands, and it will make for closer intercourse and increased friendship between the people of two continents.

ROOSEVELT RETIRES; TAFT TAKES CHARGE

(Continued from Page Six.)

ing manufactured in the interest of individual political ambition.

No Race Feeling in White House.

Personally I have not the slightest race prejudice or feeling, and recognition of its existence only awakens in my heart a deeper sympathy for those who have to bear it or suffer from it, and I question the wisdom of a policy which is likely to increase it. Meantime, if nothing is done to prevent, a better feeling between the negroes and the whites in the south will continue to grow, and more and more of the white people will come to realize that the future of the south is to be much benefited by the industrial and intellectual progress of the negro. The exercise of political franchises by those of his race who are intelligent and well to do will be acquiesced in, and the right to vote will be withheld only from the ignorant and irresponsible of both races.

The Labor Question.

There is one other matter to which I shall refer. It was made the subject of great controversy during the election and calls for at least a passing reference now. My distinguished predecessor has given much attention to the cause of labor, with whose struggle for better things he has shown the sincerest sympathy. At his instance congress has passed the bill fixing the liability of interstate carriers to their employees for injury sustained in the course of employment, abolishing the rule of fellow servant and the common law rule as to contributory negligence and substituting therefor the so called rule of comparative negligence. It has also passed a law fixing the compensation of government employees for injuries sustained in the employ of the government through the negligence of the superior. It also passed a model child labor law for the District of Columbia. In previous administrations an arbitration law for interstate commerce railroads and their employees and laws for the application of safety devices to save the lives and limbs of employees of interstate railroads had been passed. Additional legislation of this kind was passed by the outgoing congress.

I wish to say that, in so far as I can, I hope to promote the enactment of further legislation of this character. I am strongly convinced that the government should make itself as responsible to employees injured in its employ as an interstate railway corporation is made responsible by federal law to its employees, and I shall be glad, whenever any additional reasonable safety device can be invented to reduce the loss of life and limb among railway employees, to urge congress to require its adoption by interstate railroads.

Use of Injunctions Necessary.

Another labor question has arisen which has awakened the most excited discussion. That is in respect to the power of the federal courts to issue injunctions in industrial disputes. As to that, my convictions are fixed. Take away from courts, if it could be taken away, the power to issue injunctions in labor disputes, and it would create a privileged class among the laborers and save the lawless among their number from a most needful remedy available to all men for the protection of their business against lawless invasion. The proposition that business is not a property or pecuniary right which can be protected by equitable injunction is utterly without foundation in precedent or reason. The proposition is usually linked with one to make the secondary boycott lawful. Such a proposition is at variance with the American instinct and will find no support, in my judgment, when submitted to the American people. The secondary boycott is an instrument of tyranny and ought not to be made legitimate.

The issuing of a temporary restraining order without notice has in several instances been abused by its inconsiderate exercise, and to remedy this the platform upon which I was elected recommends the formulation in a statute of the conditions under which such a temporary restraining order ought to issue. A statute can and ought to be framed to embody the best modern practice and can bring the subject so closely to the attention of the court as to make abuses of the process unlikely in the future. American people, if I understand them, insist that the authority of the courts shall be sustained and are opposed to any change in the procedure by which the powers of a court may be weakened and the fearless and effective administration of justice be interfered with.

Having thus reviewed the questions likely to recur during my administration and having expressed in a summary way the position which I expect to take in recommendations to congress and in my conduct as an executive, I invoke the considerate sympathy and support of my fellow citizens and the aid of Almighty God in the discharge of my responsible duties.

ROOSEVELT RETIRES; TAFT TAKES CHARGE

(Continued from Page One.)

of the country. It is imperative necessary, therefore, that a tariff bill be drawn in good faith in accordance with promises made before the election by the party in power and as promptly passed as due consideration will permit.

Inheritance Tax Advocated.

In the making of a tariff bill the prime motive is taxation and the securing thereby of a revenue. Due to the business depression which followed the financial panic of 1907, the revenue from customs and other sources has decreased to such an extent that the expenditures for the current fiscal year will exceed the receipts by \$100,000,000. It is imperative that such a deficit shall not continue, and the framers of the tariff bill, and of course have in mind the revenues likely to be produced by it and so arrange the duties as to secure an adequate income. Should it be impossible to do so by import duties on various kinds of taxation must be adopted, and among these I recommend a graduated inheritance tax as correct in principle and as certain and easy of collection.

Government Economy Urged.

The obligation on the part of those responsible for the expenditures made to carry on the government to be as economical as possible and to make the burden of taxation as light as possible is plain and should be affirmed in every declaration of government policy. This is especially true when we are faced with a heavy deficit. When the desire to win the popular approval leads to the cutting off of expenditures really needed to make the government effective and to enable it to accomplish its proper objects, the result is as much to be condemned as the waste of government funds in unnecessary expenditure.

In the department of agriculture the use of scientific experiments on a large scale and the spread of information derived from them for the improvement of general agriculture must go on.

The importance of supervising business of great railways and industrial combinations and the necessary investigation and prosecution of unlawful business methods are another necessary tax upon government which did not exist half a century ago.

Proper Forms of Expenditures.

The putting into force of laws which shall secure the conservation of our resources so far as they may be within the jurisdiction of the federal government, including the most important work of saving and restoring our forests, and the great improvement of our waterways are all proper government functions which must involve large expenditure if properly performed. This some of them, like the reclamation of arid lands, are made to pay for themselves, others are of such an indirect benefit that this cannot be expected of them. A permanent improvement, like the Panama canal, should be treated as a distinct enterprise and should be paid for by the proceeds of bonds, the issue of which should distribute its cost between the present and future generations in accordance with the benefits derived. It may well be submitted to the serious consideration of congress whether the deepening and control of the channel of a great river system like that of the Mississippi when definitely and practical plans for the enterprise have been approved and determined upon should not be provided for in the same way.

Then, too, there are expenditures of government absolutely necessary if our country is to maintain its proper place among the nations of the world and is to exercise its proper influence in defense of its own trade interests in the maintenance of traditional American policy against the colonization of European monarchies in this hemisphere and in the promotion of peace and international morality. I refer to the maintenance of a proper army, a proper navy and suitable fortifications upon the mainland of the United States and in its dependencies.

The Army and Navy.

We should have an army so organized and so officered as to be capable in time of emergency in co-operation with the national militia and under the provisions of a proper national law rapidly to expand into a force sufficient to resist all probable invasion from abroad and to furnish a respectable expeditionary force, if necessary, in the maintenance of our traditional American policy which bears the name of President Monroe.

Our fortifications are yet in a state of only partial completeness, and the number of men to man them is insufficient. In a few years, however, the annual appropriations for our national defenses, both on the mainland and in the dependencies, will make them sufficient to resist all direct attack, and by that time we may hope

that the men to man them will be provided as a necessary adjunct. The distance of our shores from Europe and Asia, of course, reduces the necessity for maintaining under arms a great army, but it does not take away the requirement of mere prudence, that we should have an army sufficiently large and so constituted as to form a nucleus out of which a suitable force can quickly grow.

What has been said of the army may be affirmed in even a more emphatic way of the navy. A modern navy cannot be improvised. It must be built and in existence when the emergency arises which calls for its use and operation. My distinguished predecessor has in many speeches and messages set out with great force and striking language the necessity for maintaining a strong navy commensurate with the coast line, the governmental resources and the foreign trade of our nation, and I wish to reiterate all the reasons which he has presented in favor of the policy of maintaining a strong navy as the best conservator of our peace with other nations and the best means of securing respect for the assertion of our rights, the defense of our interests and the exercise of our influence in international matters.

Must Arm as Other Nations Do.

Our international policy is always to promote peace. We shall enter into any war with a full consciousness of the awful consequences that it always entails, whether successful or not, and we, of course, shall make every effort, consistent with national honor and the highest national interest, to avoid a resort to arms. We favor every instrumentality, like that of The Hague tribunal and arbitration treaties made with a view to its use in all international controversies, in order to maintain peace and to avoid war. But we should be blind to existing conditions and should allow ourselves to become foolish idealists if we did not realize that, with all the nations of the world armed and prepared for war, we must be ourselves in a similar condition in order to prevent other nations from taking advantage of us and of our inability to defend our interests and assert our rights with a strong hand. In the international controversies that are likely to arise in the orient, growing out of the question of the open door and other issues, the United States can maintain her interests intact and can secure respect for her just demands. She will not be able to do so, however, if it is understood that she never intends to back up her assertion of right and her defense of her interest by anything but mere verbal protest and diplomatic note. For these reasons the expenses of the army and navy and of coast defenses should always be considered as something which the government must pay for, and they should not be cut off through mere consideration of economy. Our government is able to afford a suitable army and a suitable navy. It may maintain them without the slightest danger to the republic or the cause of free institutions, and fear of additional taxation ought not to change a proper policy in this regard.

Protection For Our Citizens Abroad.

The policy of the United States in the Spanish war and since has given it a position of influence among the nations that it never had before and should be constantly exerted to securing to its bona fide citizens, whether native or naturalized, respect for them as such in foreign countries. We should make every effort to prevent humiliating and degrading prohibition against any of our citizens wishing temporarily to sojourn in foreign countries because of race or religion.

The Japanese Question.

The admission of Asiatic immigrants who cannot be amalgamated with our population has been made the subject either of prohibitory clauses in our treaties and statutes or of strict administrative regulation secured by diplomatic negotiations. I sincerely hope that we may continue to minimize the evils likely to arise from such immigration without unnecessary friction and by mutual concessions between self-respecting governments. Meantime we must take every precaution to prevent or, failing that, to punish outbreaks of race feeling among our people against foreigners of whatever nationality who have by our grant a treaty right to pursue lawful business here and to be protected against lawless assault or injury.

This leads me to point out a serious defect in the present federal jurisdiction which ought to be remedied at once. Having assured to other countries by treaty the protection of our laws for such of their subjects or citizens as we permit to come within our jurisdiction, we now leave to a state or a city not under the control of the federal government the duty of performing our international obligations in this respect. By proper legislation we may and ought to place in the hands of the federal executive the means of enforcing the treaty rights of such aliens in the courts of the federal government. It puts our government in a pusillanimous position to make definite engagements to protect aliens and then to excuse the failure to perform those engagements by an explanation that the duty to keep them is in

states or cities not within our control. If we would promise, we must put ourselves in a position to perform our promise. We cannot permit the possible failure of justice due to local prejudice in any state or municipal government to expose us to the risk of a war which might be avoided if federal jurisdiction was asserted by suitable legislation by congress and carried out by proper proceedings instituted by the executive in the courts of the national government.

Monetary Laws Need Change.

One of the reforms to be carried out during the incoming administration is a change of our monetary and banking laws so as to secure greater elasticity in the forms of currency available for trade and to prevent the situations of law from operating to increase the embarrassments of a financial panic. The monetary commission lately appointed is giving full consideration to existing conditions and to all proposed remedies and will doubtless suggest one that will meet the requirements of business and of public interest. We may hope that the report will embody neither the narrow view of those who believe that the sole purpose of the new system should be to secure a large return on banking capital nor of those who would have greater expansion of currency with little regard to provisions for its immediate redemption or ultimate security. There is no subject of economic discussion so intricate and so likely to evoke differing views and dogmatic statements as this one. The commission in studying the general influence of currency on business and of business on currency have wisely extended their investigations in European banking and monetary methods. The information that they have derived from such experts as they have found abroad will undoubtedly be found helpful in the solution of the difficult problem they have in hand.

Favors Postal Savings Banks.

The incoming congress should promptly fulfill the promise of the Republican platform and pass a proper postal savings bank bill. It will not be unwise or excessive paternalism. The promise to repay by the government will furnish an inducement to savings deposits which private enterprise cannot supply and at such a low rate of interest as not to withdraw custom from existing banks. It will substantially increase the funds available for investment as capital in useful enterprises. It will furnish the absolute security which makes the proposed scheme of government guaranty of deposits so alluring without its pernicious results.

Ship Subsidies Advocated.

I sincerely hope that the incoming congress will be alive, as it should be, to the importance of our foreign trade and of encouraging it in every way feasible. The possibility of increasing this trade in the orient, in the Philippines and in South America is known to every one who has given the matter attention. The direct effect of free trade between this country and the Philippines will be marked upon our sale of cottons, agricultural machinery and other manufactures. The necessity of the establishment of direct lines of steamers between North and South America has been brought to the attention of congress by my predecessor and by Mr. Root before and after his noteworthy visit to that continent, and I sincerely hope that congress may be induced to see the wisdom of a tentative effort to establish such lines by the use of mail subsidies.

The importance which the department of agriculture and of commerce and labor may play in ridding the markets of Europe of prohibitions and discriminations against the importation of our products is fully understood, and it is hoped that the use of the maximum and minimum feature of our tariff law to be soon passed will be effective to remove many of those restrictions.

Lock Canal Plan Defended.

The Panama canal will have a most important bearing upon the trade between the eastern and the far western sections of our country and will greatly increase the facilities for

transportation between the eastern and the western seaboard and may possibly revolutionize the transcontinental rates with respect to bulky merchandise. It will also have a most beneficial effect to increase the trade between the eastern seaboard of the United States and the western coast of South America and indeed with some of the important ports of the east coast of South America reached by rail from the west coast. The work on the canal is making most satisfactory progress. The type of the canal as a lock canal was fixed by congress after a full consideration of the conflicting reports of the majority and minority of the consulting board and after the recommendation of the war department and the executive upon those reports. Recent suggestion that something had occurred on the isthmus to make the lock type of the canal less feasible than it was supposed to be when the reports were made and the policy determined on led to a visit to the isthmus of a board of competent engineers to examine the Gatun dam and locks which are the key of the lock type. The report of that board shows that nothing has occurred in the nature of newly revealed evidence which should change the views once formed in the original discussion. The construction will go on under a most effective organization controlled by Colonel Goethals and his fellow army engineers associated with him and will certainly be completed early in the next administration, if not before.

Some type of canal must be constructed. The lock type has been selected. We are all in favor of having it built as promptly as possible. We must not now, therefore, keep up a fire in the rear of the agents whom we have authorized to do our work on the isthmus. We must hold up their hands, and, speaking for the incoming administration, I wish to say that I propose to devote all the energy possible and under my control to the pushing of this work on the plans which have been adopted and to stand behind the men who are doing faithful hard work to bring about the early completion of this the greatest constructive enterprise of modern times.

Free Trade With Philippines.

The governments of our dependencies in Porto Rico and the Philippines are progressing as favorably as could be desired. The prosperity of Porto Rico continues unabated. The business conditions in the Philippines are not all that we could wish them to be, but with the passage of the new tariff bill permitting free trade between the United States and the archipelago, with such limitations in sugar and tobacco as shall prevent injury to the domestic interests on those products, we can count on an improvement in business conditions in the Philippines and the development of a mutually profitable trade between this country and the islands. Meantime our government in each dependency is upholding the traditions of civil liberty and increasing popular control, which might be expected under American auspices. The work which we are doing there redounds to our credit as a nation.

Words of Friendship For the South.

I look forward with hope to increasing the already good feeling between the south and the other sections of the country. My chief purpose is not to effect a change in the electoral vote of the southern states. That is a secondary consideration. What I look forward to is an increase in the tolerance of political views of all kinds and their advocacy throughout the south and the existence of a respectable political opposition in every state—even more than this, to an increased feeling on the part of all the people in the south that this government is their government and that its officers in their states are their officers.

The Negro Question.

The consideration of this question cannot, however, be complete and full without reference to the negro race, its progress and its present condition. The thirteenth amendment secured them freedom, the fourteenth amendment due process of law, protection of property and the pursuit of happiness, and the fifteenth amendment attempted to secure the negro against any deprivation of the privilege to vote because he was a negro. The thirteenth and fourteenth amendments have been generally enforced and have secured the objects for which they were intended. While the fifteenth amendment has not been generally observed, in the past, it ought to be observed, and the tendency of southern legislation today is toward the enactment of electoral qualifications which shall square with that amendment.

No Repeal of Fifteenth Amendment.

Of course the mere adoption of a constitutional law is only one step in the right direction. It must be fairly and justly enforced as well. In time both will come. Hence it is clear to all that the domination of an ignorant, irresponsible element can be prevented by constitutional laws which shall exclude from voting both negroes and whites not having education or other qualifications thought to be necessary for a proper electorate. The danger of the control of an ignorant electorate

has therefore passed. With this change the interest which many of the southern white citizens take in the welfare of the negroes has increased. The colored men must base their hope on the results of their own industry, self-restraint, thrift and business success as well as upon the aid and comfort and sympathy which they may receive from their white neighbors of the south. There was a time when northerners who sympathized with the negro in his necessary struggle for better conditions sought to give to him the suffrage as a protection and to enforce its exercise against the prevailing sentiment of the south. The movement proved to be a failure. What remains is the fifteenth amendment to the constitution and the right to have statutes of states specifying qualifications for electors subjected to the test of compliance with that amendment. This is a great protection to the negro. It never will be repealed, and it never ought to be repealed. If it had not been passed it might be difficult now to adopt it, but with it in our fundamental law the policy of southern legislation must and will tend to obey it, and so long as the statutes of the states meet the test of this amendment and are not otherwise in conflict with the constitution and laws of the United States it is not the disposition or within the province of the federal government to interfere with the regulation by southern states of their domestic affairs.

"Negro Is Now American."

There is in the south a stronger feeling than ever among the intelligent, well to do and influential element in favor of the industrial education of the negro and the encouragement of the race to make themselves useful members of the community. The progress which the negro has made in the last fifty years from slavery, when its statistics are reviewed, is marvelous, and it furnishes every reason to hope that in the next twenty-five years a still greater improvement in his condition as a productive member of society, on the farm and in the shop and in other occupations, may come. The negroes are now Americans. Their ancestors came here years ago against their will, and this is their only country and their only flag. They have shown themselves anxious to live for it and to die for it. Encountering the race feeling against them, subjected at times to cruel injustice growing out of it, they may well have our profound sympathy and aid in the struggle they are making. We are charged with the sacred duty of making their path as smooth and easy as we can. Any recognition of their distinguished men, any appointment to office from among their number, is properly taken as an encouragement and an appreciation of their progress, and this just policy shall be pursued.

The Appointment of Negroes.

But it may well admit of doubt whether in case of any race an appointment of one of their number to a local office in a community in which the race feeling is so widespread and acute as to interfere with the ease and facility with which the local government business can be done by the appointee is of sufficient benefit by way of encouragement to the race to outweigh the recurrence and increase of race feeling which such an appointment is likely to engender. Therefore the executive in recognizing the negro race by appointments must exercise a careful discretion not thereby to do it more harm than good. On the other hand, we must be careful not to encourage the mere pretense of race feeling.

The Swine or the Flower?

It is said I saw a huge and loathsome sty, wherein a drove of wallowing swine were bawling.

These swine shocked the nostril and set eyes.

There came a voice, "Behold the source of lust!"

I did, and saw a field that seemed at first like a glowing mass of roses pure and white.

With dewy buds 'mid dark green foliage, and, as I lingered o'er the lovely sight, a summer breeze, that cooled that Southern scene,

Whispered, "Behold the source of COTTON!"
